Special Explanation to the Public.

Prof. Baldwin wishes it distinctly understaod he does not claim that either himself or Mrs. Baldwin possess any occult or supernatural power. The results produced, especially in the "Somnomancy" and Materialization, are wierd and bewildering, but the forces and means employed although at present understood by the mass of people, are perfectly natural, and may in some future day be utilized by scientific workers.

SPECIAL NOTICE.

Professor Baldwin receives hundreds of lettersand has to employ two secretaries to assist in his correspondence. Letters regarding Clairvoyancy and Somnomancy will not be answered unless they contain an envelope properly addressed (and stamped) for the reply. Even then no answers will be sent to letters deemed silly or unimportant. It is not much work to address one letter, but with hundreds it becomes a burden. Even when a stamped envelope is sent it may be some days before a reply can be given. Don't write unless it is important. If letters are answered it will be done as as a matter of courtesy and no fee charged.
